Lubin 27.10.2023

REFERENCE

SF-Filter SP Z O.O. based in Lubin 59-300 at ul. Towarowa 10 is pleased to confirm the professionalism and high quality of services provided by Mr. Marcin Szymański from BaldBold.eu.

The company was responsible for creating a safe and convenient system that allows finalists of our loyalty program to choose prizes based on a personalized link. Mr. Marcin proposed the perfect solution for us by creating a WordPress plugin that fulfilled its purpose perfectly. All program participants easily chose their dream prizes and our employee responsible for collecting data had an easier task and saved many hours thanks to the ability to download a file that collected the most important data necessary for ordering and shipping prizes.

Our company and the finalists of Loyalty Program were very satisfied with the smooth running of the entire process, which was possible thanks to the innovative solutions proposed by Mr. Marcin. SF-Filter very much appreciates the professionalism of BaldBold.eu, so we will certainly turn to Mr. Marcin Szymański for help in future projects.

We recommend BaldBold.eu, which has extensive experience in designing and creating websites and portals as well as mobile applications.
